

Spy x Family

TATSUYA ENDO

General Thoughts

Spy x Family has a good mix of Slice of Life and Action and balances the two well, with healthy doses of comedy throughout. The plot establishes itself well in the opening chapters and eases you into its – quite ludicrous sounding-story, making the emotions of all the characters feel real. The mix of a larger over-arching plot with smaller stories adds a good variety to the story, although Yor needs more assassin work.

The characters have real heart, and their motives seem genuine and convincing. They all appear likeable, although Lloyd has less pure motivations than others in his family. The facial expressions are hilarious, and Anya's childish innocence juxtaposes the more serious adult characters, making every scene she's in funnier.

The opening 8 chapters are filled with memorable moments and laugh out loud gags, introducing you beautifully and letting you get to know the characters, so we can watch their barriers and personas fall, so hopefully they'll get their happy family in the end.

8

SPOILER Thoughts and Theories

Favourite Scenes:

- TRES ELEGANTE- and everything else Henry Henderson said
- The family working as a three to recover a stolen purse
- The myriad of stunning outfit changes in the interview
- Grenade engagement ring is best engagement ring

Theories

- Identities will be revealed in the final story arc
- The man they're after right now will only be a stepping stone to a bigger conspiracy
- Yor will be hired to kill 'Agent Twilight'
- Lloyd is actually wearing a mask now and is secretly just an onion of different masks
- They'll end up as a happy spy family-best in the business
